I'm a professional MERN Stack and WordPress web developer with over 3 years of hands-on industry experience. I specialize in building visually appealing, responsive, and high-performance websites that enhance user engagement and drive results. My passion lies in blending creative design with clean, efficient code to deliver seamless digital experiences. With a strong eye for detail and a user-focused mindset, I turn ideas into powerful, functional, and elegant web solutions.

Work Experience

MERN Stack Developer

Feb 2025 - Present

[Firas.tech](https://firnas.tech)

Developed and maintained dynamic web applications using the MERN stack. Delivered scalable, responsive, and visually engaging websites. Collaborated with cross-functional teams to transform client requirements into robust digital solutions, enhancing performance and user experience across multiple projects.

WordPress Developer

Mar 2023 - May 2024

[Systemic Agency](https://systemicagency.com)

Worked as a WordPress Developer focused on building and customizing websites using popular themes and page builders like Elementor. Handled plugin integrations, site optimizations, and responsive design. Collaborated with teams to implement client requirements and ensured SEO-friendly, fast-loading, and user-friendly websites.

Frontend Developer

Feb 2022 - Dec 2022

[Codematics](https://codematics.com)

Worked as a Frontend Developer building responsive, user-friendly web interfaces using HTML, CSS, JavaScript, and React. Collaborated with backend teams to integrate APIs and ensure smooth data flow. Focused on performance optimization, cross-browser compatibility, and delivering pixel-perfect UI based on Figma and Adobe XD designs.

Projects

S4

Sep 2024 - Jan 2025

Worked as a Frontend Developer for the S4 project, responsible for building responsive UI components using React and integrating RESTful APIs for dynamic data rendering. Collaborated closely with the backend team to ensure smooth communication between frontend and server, enhancing overall user experience and functionality.

Lemara Commercial

Feb 2025 - Present

Worked as a Frontend Developer on the Lemara Commercial project, where I developed responsive UI components and integrated RESTful APIs to ensure dynamic and real-time functionality. Collaborated with designers and backend developers to deliver a seamless user experience, ensuring performance, cross-browser compatibility, and mobile responsiveness.

Katana

Apr 2025 - May 2025

Developed a custom WordPress website enriched with interactive animations to enhance user engagement and visual appeal. Utilized advanced CSS, JavaScript, and animation libraries to implement smooth scroll effects, hover

transitions, and animated elements. Focused on performance, responsiveness, and maintaining compatibility across devices and browsers.
